

## The Giraffe Manor

In Nairobi, the capital of Kenya, there is a famous hotel—the Giraffe Manor. The hotel is actually an 87-year-old house with two floors and twelve bedrooms. There is something very special about this beautiful hotel—it has giraffes! People come from all over the world to see them. The giraffes are near the house and walk around the garden outside. The windows are very big, so you can see them from any room in the house.

At lunch time, the giraffes line up at the open windows and join you! You can feed them some fruit like apples or bananas. There is no danger. The giraffes are awesome and don't attack. You can take many selfies with them. Everyone can have a fun lunch.

There is a forest near the house, too. A tour guide can take people for a walk in the afternoon. You can see many beautiful and colorful birds. The Giraffe Manor is not just a hotel. It is an amazing place for nature lovers.
